

ISPRS Geospatial Week 2017

Invitation Letter

Dear Sir/Madam:

The 3rd ISPRS Geospatial Week 2017, which is devoted to promoting international cooperation and exchanges in surveying and mapping and the development of geospatial science and technology, will be held by the International Society for Photogrammetry and Remote Sensing (ISPRS) and Wuhan University at Wuhan East Lake International Conference Center during the week from 18th to 22nd of September.

ISPRS Geospatial Week 2017, which is led by ISPRS, is held in every two years. The conference aims to create the opportunities for the participants from the different International communities of Photogrammetry and Remote Sensing. Experts, scholars and users from all around the world will gather in Wuhan, exchange the latest research results, share successfully experiences, study the academic and technical development, and show the advanced technology and surveying and mapping achievements.

The theme of the GIS-Smart City 2017 is “Geospatial for Smart City” in the first day. Plenary session will be in the first whole day. There will be nine workshops and technical exhibitions in the next four days. There will be several academic activities and social programs, such as the main venue, the sub-venue, commercial exhibitions, new product release, awards & honors, social parties and recruitment.

It would be a great pleasure to meet you at the Conference. We are cordially looking forward to see you at Wuhan East Lake International Conference and sharing the beautiful scenery with you.
